

Coursera Financial Application answer by Karan Patel

1) Why are you applying for Financial Aid?

(150 words minimum required)

I am a student from India, doing graduation in biomedical engineering. I think it will be beneficial for my thesis work on medical image processing using python. Because my study is not complete yet, I have no job of my own to carry the expenses to pay for the certificate of this course. I hardly have some money for my essentials. Also income of my parents cannot support for the same. Financial aid will help me take this course without any adverse impact on my monthly essential needs. This course will help me to improve my job prospects after graduation from my institute. A verified certificate will attach credibility to the certificate I receive from this course. It will also to make my Curriculum vitae and knowledge strong. It's a humble request to accept my application as I am very much in need for this financial aid to complete this course.

2) How will taking this course help you achieve your career goals? (150 words minimum required)

My main career goal is to learn every day. I really want to learn and have progress in my career. I want to pursue my carrier in medical image processing using python. Because, I am from a medical background I do not have much knowledge on scientific writing. Writing skill requires constant learning, proper guiding and practice, so this course will help me to give knowledge about the writing and its method, how to write in scientific manner? I am in final year student; I worked on area of research based on image processing. I want to frame the paper on research, so for that purpose I require subscription. Apart from this purpose, this course will enhance my writing ability.

3) Would you consider using a low-interest loan to pay for your courses?

I am under graduate student and my study is not complete yet, I am not having any income source for paying installation of loan or course fees and also income of my parents cannot support for the same. My financial condition is not so strong to pay fees for this course. So kindly pay attention on my needs and I hope I will be able to do this course with support of financial aid.

INFORMATION THAT YOU CAN ADD EXTRA & OTHER COURSE ANSWER:

This course helps me to make my ideas and project into paper format which encourage me towards my future goals. Verified certificate will help me to make my CV (Curriculum vitae) strong. The grant will just push me further towards my Accounting degree and my fantasies of one day having a fruitful vocation as a Medical image processor.

Programming requires constant learning and improving, so this course will help me to give knowledge about the python and its libraries. Python have large amount of libraries for medical image processing and I can also apply deep learning, machine learning and CNN (convolutional neural network) to the medical images using python easily and accurately.

This course helps me to make my ideas and project more feasible which encourage me towards my future goals. Verified certificate will help me to make my CV (Curriculum vitae) strong. The grant will just push me further towards my Accounting degree and my fantasies of one day having a fruitful vocation as a Medical image processor.
